Institutional Key

Site 1 = St. Rita's Medical Center
 Site 2 = Joint Township District Memorial Hospital and
 JTDM Family Practices, LLC, St. Mary's OH
 Office of Dr. Natasha Alexander
 Site 3 = Gastrointestinal Associates, Lima OH
 Site 4 = Mid West Infectious Disease, Lima, OH
 Office of Dr. Solomon X. Beraki
 Site 5 = Cancer Care of West Central Ohio, Lima, OH
 Office of Dr. David Powell

Vacation Time:

PGY1 = 21 days
 PGY2 = 23 days
 PGY3 = 25 days

^~ Hematology/Oncology almost 100% outpatient. May see in-hospital cases if attending feels they represent good learning opportunity for resident

"Specialty" rotations in the areas listed above may reflect variable research time dependent upon the interests of the resident. The percentage of time devoted to research activities in these specialties varies as noted and may be taken during either inpatient or outpatient assigned time, dependent upon resident needs and interests. These rotations are clinical in nature.

"Elective" rotations can consist of any of the "Specialty" rotations (listed next page) or of clinical research or quality improvement projects. Those residents electing to do research or clinical quality improvement projects during elective time spend 100 percent of their time in research with the exception of maintenance of outpatient continuity clinics. With rare exceptions for special circumstances, elective rotations occur at Site 1 (St. Rita's Medical Center).

Elective Options

Addiction/Pain Medicine

Ambulatory Medicine

Anesthesiology

General Internal Medicine

Cardiology

Critical Care

Dermatology

Emergency Medicine

Endocrinology

Hematology/Oncology

Gastroenterology

Geriatrics

Gynecology

Health Administration/Mgmt

Infectious Disease

- May include Wound Mgmt / Hyperbaric O2 Therapy

Nephrology

Occupational Medicine

Ophthalmology (Medical)

Orthopedics (Non-operative/Ambulatory)

Otolaryngology (Outpatient)

Palliative Care & Hospice

Pathology/Laboratory

Preoperative Assessment

Pulmonary Disease

Psychiatry

Radiology

Physical Medicine & Rehabilitation

Sleep Medicine

Sports Medicine

Rheumatology
