Skin Care Services Descriptions:

European Oxygen Facial: Approx. 60 minutes. This service is a thorough facial including cleansing, steaming, exfoliating, masque, massage, and moisturizing treatment. Warm towels are used throughout all of our facials to remove product and promote relaxation.

Express Facial: Approx. 30 minutes for when you're on the go! The same steps are used as in the European Oxygen Facial in half the time.

Enzyme Facial: Approx. 75 minutes. This service is geared toward clients needing deeper exfoliation. This service includes extra masque and massage time.

Acne Clearing Facial: Approx. 90 minutes. Enjoy a deep pore cleansing treatment along with a special masque. Extractions are performed if necessary.

Gentleman's Facial: Approx. 60 minutes. Oxygen Botanicals skincare line is not just for the ladies! For this service, the same steps are used as in the European Oxygen Facial. A specialty serum is applied to help prevent ingrown hairs from daily shaving.

Pre-Teen Facial: Approx. 60 minutes. This service takes into consideration the ever-changing and sometimes sensitive adolescent's skin. An enzyme masque and deep pore cleanser is used along with a specialty serum for acne prevention. Service includes a consultation for at-home skin care.

Aromatherapy Facial: Approx. 60 minutes. Enjoy your choice between four essential oil fusions; relaxing, rejuvenating, balancing, and energizing. Oils will be used during the steam portion of this service. Not applied directly on the face. Not recommended during pregnancy.

Back Facial: Approx. 45 minutes. This service includes all the same steps as in our European Oxygen Facial. Clients enjoy a scalp massage during the masque time.

Anti-Aging Facial: Approx. 90 minutes. This service is for those who want to control the effects of aging. After consultation, your skin therapist will determine which specialty serum should be used. Specialty serums include: hyperpigmentation, anti-oxidant, face-lift, and oxygen hydrating.

Contraindications: Fever blisters, open sores, severe sunburn, and any type of infection.
