

Mercy Health - St. Elizabeth Youngstown Hospital Acute Rehabilitation Program

2021 Disclosure Statement

Persons Served

St. Elizabeth Youngstown Hospital Acute Rehabilitation Unit provides services for adult patients with functional loss due to disabling illness or injury, including:

Stroke (CVA) / Head injury / Amputation / Multiple Trauma / Polyarthritis / Hip fractures
Hip/knee replacements / Spinal cord injury / Polyneuropathy / Multiple sclerosis / Guillain-Barre syndrome Parkinson's / other progressive neurological problems

Services Provided

Rehabilitation medicine / Rehabilitation nursing / Physical therapy / Occupational therapy
Recreation therapy / Nutrition services / Neuropsychology / Speech/language therapy
Social work/Case management. Since the Rehabilitation Unit is within St. Elizabeth Youngstown Hospital, Medical Services such as Lab, Radiology, Surgery, Pharmacy, Pulmonology, Neurology and Orthopedics are readily available as needed. Test Results for these services are completed in a timely manner or a stat basis.

Scope of Service

Patients receive at least three hours of therapy per day up to seven days a week. We do not serve patients on ventilators, comatose patients, patients needing cardiac monitoring, patients with respiratory or strict isolation. Patients under 18 years of age are admitted at the discretion of our physician. If our unit is unable to meet the needs of a patient, recommendations for alternative services are made.

Financial

Medicare and your supplemental secondary insurance (if you have one) will cover most services provided during your rehab stay as long as you meet the admission and continued stay criteria. If you have other types of insurance, your benefits will be verified before admission. If there are limitations to your coverage, the social worker or case manager will discuss these with you, as well as alternative resources to help meet your needs.

Our Commitment to You

It is the policy of St. Elizabeth Youngstown Hospital Acute Rehabilitation Unit that all team members will act in a manner consistent with the mission, philosophy and operating policies of the program. In accordance with these principles and policies, team members will: Show respect for the dignity of the individual, whether patient, family member co-worker, client or any other person; Provide the highest quality clinical and customer-related services; Demonstrate fairness and honesty in all interactions with the public; Adhere to their professional codes and practice guidelines; Provide an accurate portrayal of the services and outcomes of the programs; Be ethical in all marketing and public relations activities.
