### HEALTH SCREEN PROFILE: \$40

Our Health Screening and Wellness Fairs feature this combined lab test:

- basic metabolic panel: blood urea nitrogen (BUN), calcium, creatinine, electrolytes (sodium, potassium, chloride, carbon dioxide), glucose
- complete blood count (CBC) without white blood cell types (WBC differential), white blood cell (WBC), red blood cell (RBC), hemoglobin, hematocrit, platelets
- lipid profile: cholesterol, high-density lipoprotein (HDL), low-density lipoprotein (LDL), triglycerides
- liver enzymes: ALT and AST levels

### ADDITIONAL LAB TESTS AVAILABLE

- Hemoglobin A1c – \$20
- Prostate-specific antigen (PSA; males only) – \$25
- Thyroid stimulating hormone (TSH) – \$20

### ADDITIONAL FREE SERVICES (AVAILABLE ONLY AT HOSPITAL LOCATIONS)

- Blood pressure screening
- Body composition analysis
- Bone density screening
- Lung function screening (only available at Mercy Health – Tiffin Hospital)

An appointment is not required for these health promotion events. Fasting for 12 hours is highly recommended for the Health Screen Profile. (You may drink water and take regular medications.) Test results will be mailed to screening participants within several days of the screening. This is a screening event; no physician orders will be accepted. Insurance plans will not be billed. Only cash or checks made out to Mercy Health - Tiffin Hospital or Mercy Health - Willard Hospital will be accepted.
