Dance and tumble teaches children body awareness and strength along with communication, listening and teamwork skills. Children learn to work hard and push themselves to be their best, even after failure, instilling a work ethic that sets them up for a successful life that reaches beyond dance and tumbling.

Our new dance instructor, Holly, participated on the Anderson High School Dance Team and the Morehead State Competition Dance Team. Holly has choreographed over 20 musicals and has taught dance to all ages for the past 20 years.
