

Meet the Residents

OTOLARYNGOLOGY

Jay Homewood, DO - PGY 5

Undergraduate School :
Brigham Young University

Medical School :
Texas College of
Osteopathic Medicine

Why I Selected This Program

Amazing operative experience, early autonomy, great resident culture, cost of living in Youngstown is good.

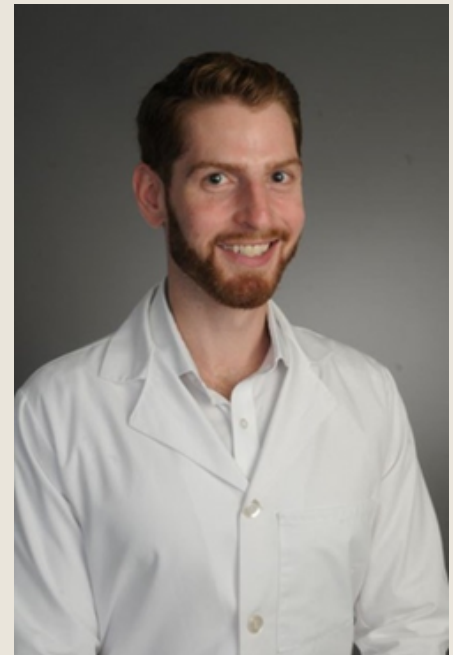

About Me & my Hobbies

I am married with two kids and two dogs. I love hiking, snowboarding, and wakeboarding. I competed in gymnastics growing up. I am from Arizona and will be joining a private practice in 2025 in Queen Creek, AZ.

Avi Shaw, DO - PGY 4

Undergraduate School :
University of Maryland Baltimore County

Medical School :
Midwestern University,
Arizona College of Medicine

Why I Selected This Program

I chose Mercy ENT because of its high surgical volume, one-on-one training with attendings, friendly atmosphere and lots of autonomy to develop into the surgeon I desire to be.

About Me & my Hobbies

I like to golf and am an avid baseball lover. Novice tennis enthusiast. I love traveling, campfires and live music.

Meet the Residents

OTOLARYNGOLOGY

Sidney Spencer, DO - PGY 3

Undergraduate School :
University of Missouri – Kansas City

Medical School :
Kansas City University

Why I Selected This Program

The small, close-knit program was a good fit for me. Lots of one-on-one operating with attendings leads to robust surgical training with broad exposure in a community setting. Because we are a smaller group, you carry a lot more responsibility and autonomy as part of the team.

About Me & my Hobbies

I have a 3 year old son currently and 2 pups that keep me busy. In my free time I enjoy cooking, reading fantasy, running and yoga. On the weekends, my husband and I like hanging out with friends/co-residents for brunch or dinner. We love going to the local parks and trails such as Mill Creek which are beautiful.

Tim Morley, DO - PGY 2

Undergraduate School :
Brigham Young University – Idaho

Medical School :
Alabama College of Osteopathic Medicine

Why I Selected This Program

I chose this ENT program for the very high surgical volume, personalized teaching style, and family-like camaraderie among the co-residents and attendings. This place immediately felt like home. We serve a very diverse population that offers a wide variety of pathology encompassing all fields within Otolaryngology.

About Me & my Hobbies

Originally from Idaho, I enjoy the outdoors, camping, dirt-biking and snowboarding. In my down time, I am an avid movie-goer and follow my college football teams. I also love spending time with my 3 children and wonderful wife.

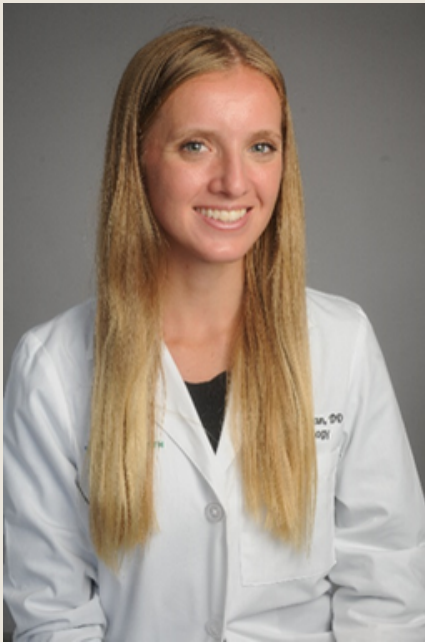

Meet the Residents

OTOLARYNGOLOGY

Olivia Chapman, DO - PGY 1

Undergraduate School :
University of Akron

Medical School :
Lake Erie College of
Osteopathic Medicine - Erie

About Me & my Hobbies

i grew up in New Jersey & Pennsylvania. My hobbies include water skiing, snow skiing/snowboarding, running, traveling, hanging out with family & friends, reading, biking, paddle-boarding, playing soccer, baking, fly fishing and gardening.

Why I Selected This Program

The unique opportunity to experience both academic and community-based learning stood out to me. I was inspired by the culture of this program and the residents/staff. I was appreciative of the focus on teaching/learning. Further, the residents' autonomy and the amount of time spent in the operating room stood out to me. I am appreciative of the volume in the clinic as i feel it is important to see as much pathology as possible during residency to become a well-rounded and efficient attending, all qualities I have seen displayed by the residents and attendings at this program. I believe that by training at this program under the guidance of the accomplished faculty would allow me to grow to my full potential.
