

A spirit of care

When a loved one is struggling with an illness that's emotionally exhausting, you want them to have peace and comfort. And you need the peace of mind that they are being cared for with compassion and empathy.

That's why we created Heritage Pointe at Oakwood Village.

Heritage Pointe embraces families and caregivers who are challenged with caring for a loved one. As part of Oakwood Village, we've been caring for our senior community since 1987. We're growing to offer you more specialized, faith-based care, right here in your hometown.

Heritage Pointe at Oakwood Village: Part of a caring community

Growing our caring community to serve you

Heritage Pointe at Oakwood Village

A Catholic healthcare ministry serving Ohio and Kentucky

Expert care that feels right at home

Heritage Pointe offers 16 assisted living memory care apartments that specialize in the early stages of Alzheimer's and dementia care. We keep our number of residents low so we can truly focus on caring for them in a comfortable, loving environment. Our facility is also directed and managed by a full-time Certified Dementia Practitioner, so your loved one has the focused attention from a staff that's dedicated to their care.

A warm, relaxing environment

We designed Heritage Pointe with comfort in mind. That's why we created a safe and secure facility with an enclosed courtyard. Our grounds promote a warm, open environment with beautiful views of woods, prairies and ponds.

An innovative approach to better care

Heritage Pointe is an intimate care facility that uses modern, cutting-edge design to make our residents even more comfortable. One of our innovations is the use of Behavior Based Ergonomic Training (BBET), which was developed by Wright State University's Dr. Govind Bharwani.

Ergonomics is the study of creating an environment that lowers the physical stress on residents. Dr. Bharwani studied the effects of care on dementia patients and discovered that falls and other negative behaviors could be lowered through more customized, scheduled group activities and specialized daily routines.

The results of his studies—more active, engaged patients—have been ground breaking. We're honored to work with Dr. Bharwani and use his findings to improve the overall care of our residents.

Who we are

Oakwood Village sits on over 72 beautifully-landscaped acres and offers gracious, affordable assisted living right here in your community. Our campus offers a variety of independent living options, including nursing care and assisted living communities on site.

We believe in helping seniors get the most out of life, which is why we offer specialized care, support and lifestyle opportunities to meet your needs. And it all comes with a spirit of compassion and care you won't find anywhere else.

Caring is our mission

As part of Mercy Health, we are joined in our Mission to give selflessly, listen patiently, care purposefully and heal expertly. Together, we bring state-of-the-art technology, and experts in over 100 specialties to 23 hospitals, and more than 450 locations across Ohio and Kentucky.

We truly want to offer the best possible care for your loved ones. It's what we were meant to do.
