A peacefull setting

Our 30 all-private suites also create the peaceful environment patients need to recover. Every suite features:

- Private bath
- Electric 42-inch-wide therapeutic adjustable beds
- Remote-controlled light
- Telephone
- 42-inch-wide TV with cable
- Free wireless service
- Plush recliner
- One-of-a-kind view
- Selective menu options that can be delivered to the room or served in our spacious dining room

Transitions suites also are part of Oakwood Village’s beautiful 72-acre campus, which has safe walking paths, woods, prairies, courtyards and a pond.

Support for caregivers

To support our residents’ families, friends and referring doctors, as well as visiting healthcare staff, Transitions includes convenient services and amenities:

- A café with free soda and coffee
- A business center with desktop computers and Internet
- Around-the-clock admissions
- Dining area with a fireplace and a courtyard patio for enjoying meals

To pre-register for admission, schedule a tour or learn more about our Transitions rehabilitation suites, please call 937-390-9000.

mercy.com
State-of-the-art rehabilitation

Transitions patients receive the most advanced therapy available. In addition to weights, rebounders, recumbent bicycles, treadmills and standing tables, our new 2,800-square-foot gym offers:

- A car transfer simulator, where patients can practice getting into and out of a car in a safe, comfortable indoor setting
- A sky lift for patients with limited mobility
- A putting green for improving balance and practicing real-life activities
- A range of therapeutic technologies
- Environmental home assessments and modifications

Continuing care

The range of services at Oakwood Village makes it easy for patients to transition to a different level of care. Before patients return home, a rehabilitation expert helps find solutions for factors that might limit a patient’s mobility or independence in and around their home. As a continuing care retirement community, the campus also offers:

- One-on-one therapy available seven days a week
- An outpatient treatment program for patients to continue improving their skills and independence
- Independent living cottages, apartments, assisted-living, assisted-living memory care and long term care skilled-nursing housing options

As part of Mercy Health, it is our mission to give selflessly, listen patiently, care purposefully and heal expertly. It’s what we were meant to do.

Individualized therapy

We offer advanced physical, occupational and speech therapy for people recovering from a range of health problems and procedures, including:

- Heart surgery and cardiac recovery services
- Orthopedic injury or surgery
- Stroke and neurologic conditions
- Pulmonary Care treating lung conditions
- Wounds and complex medical treatments

Our goal is to provide the compassionate support each patient needs to safely return home and function at the highest level possible.

High-quality team care

To offer the best care for patients’ immediate needs and long-term rehabilitation, we use a team approach that involves:

- The referring doctor or specialist, who receives regular progress updates and rehabilitation outcomes
- A medical director who is on-site five days a week
- Around-the-clock nursing care
- Physical, occupational and speech-language therapists from RehabCare, a nationally recognized leader in rehabilitation
