

Introducing...

GROW Strong RN

GROW Strong RN is a fresh, new take on the traditional nurse residency.

After a comprehensive evaluation of existing residency programs, we identified that nurse residents wanted an enhanced learning experience with hands-on skills and additional professional development opportunities.

This led us to redesign and reimagine our transition-to-practice offerings.

The all-new **GROW Strong RN** nurse residency program provides core content as well as Clinical Practice Tracks focusing on the nurse participant's specialty.

6 Virtual Core Content Classes
Rolling enrollment within 30-45 days of hire

In-person Learning Clinical Practice Tracks (CPTs)
4-hour sessions
Skills and Simulation
